📄 [spencermyoung513](#) • Last updated on September 1, 2026

My research aims to make machine learning work with fewer resources (limited compute, data, etc.). Natural extensions in this area include uncertainty quantification and interpretability, which allow less-powerful systems to be safely deployed and used. My work blends theoretical rigor with real-world pragmatism and has led to multiple peer-reviewed publications, as well as several impactful products in the retail intelligence space.

Education

Ph.D. in Computer Science, Georgia Institute of Technology 2026 – Present
B.S. in Applied and Computational Mathematics, Brigham Young University (4.0/4.0) 2017 – 2023

Experience

Delicious AI, Lehi, UT — Machine Learning Scientist 2023 – Present
BYU METAL Labs, Provo, UT — Undergraduate Researcher 2022 – 2023
Qualtrics, Provo, UT — Research Intern, Text iQ June 2022 – August 2022
Pacific Northwest National Laboratory, Seattle, WA (*Remote*) — Research Intern June 2021 – August 2021

Honors & Awards

NSF GRFP Fellow 2026
Valedictorian, College of Physical and Mathematical Sciences (BYU) 2023
Thomas S. Monson Presidential Scholarship, Brigham Young University 2017 – 2023
5x Dean's List, Brigham Young University 2017 – 2023
5x Society of American Military Engineers Scholarship, Seattle Post 2017 – 2023
National Merit Scholar 2017

Publications

2025

1. *Learning to Attribute Products to Prices in Retail Shelf Images*
[Spencer Young](#), [Stockton Jenkins](#), [Luke Green](#), [Kevin Miller](#), and [Porter Jenkins](#)
Preprint 2025
2. *Fully Heteroscedastic Count Regression with Deep Double Poisson Networks*
[Spencer Young](#), [Porter Jenkins](#), [Longchao Da](#), [Jeffrey Dotson](#), and [Hua Wei](#)
42nd International Conference on Machine Learning (Acceptance Rate: 27%) 2025
3. *Assessing the Probabilistic Fit of Neural Regressors via Conditional Congruence*
[Spencer Young](#), [Riley Sinema](#), [Cole Edgren](#), [Andrew Hall](#), [Nathan Dong](#), and [Porter Jenkins](#)
28th European Conference on Artificial Intelligence (Acceptance Rate: 23%) 2025

2024

4. *A General Method for Measuring Calibration of Probabilistic Neural Regressors*
[Spencer Young](#) and [Porter Jenkins](#)
3rd Workshop on Uncertainty Reasoning and Quantification in Decision Making (at KDD) 2024

Repositories

[delicious-ai/ddpn](#) — Training/evaluation code for various probabilistic neural regressors 2025
[delicious-ai/price-net](#) — Training/evaluation code for learnable product-price attribution in retail images 2025
[spencermyoung513/probcal](#) — Kernel-based conditional assessment of probabilistic models 2024
[delicious-ai/HungarianAlgorithm](#) — Optimized implementation of the Hungarian Algorithm in Swift 2023

Invited Talks

2025

1. Keep Your Models Honest: Quantifying and Evaluating Uncertainty in Deep Learning – Brigham Young University (Applied Analysis Seminar) ([slides](#))
2. Starting a Career in ML Research – Brigham Young University (MATH 495R) ([slides](#))

2024

3. Vector Databases in the Wild – Brigham Young University (CS 452) ([slides](#))

2023

4. Deep Metric Learning – Brigham Young University (CS 180) ([slides](#))

Professional Activities

Advisory Board Member, BYU Applied and Computational Mathematics	2025 – Present
Alumni Board Member, BYU Applied and Computational Mathematics	2023 – Present
President, Student Advisory Council, BYU Applied and Computational Mathematics	2021 – 2022

Extracurriculars

Delegate, Utah County	2024 – 2026
Aspen Chorale	2023 – 2025
BYU Student Voice	2020 – 2021
BYU Men's Chorus	2017, 2020
Full-time Missionary, Church of Jesus Christ of Latter-day Saints	2017 – 2019
Math / Coding Tutor	2017 – Present
